

Budapest, 12 June 2013

Alexander Dodds to become MOL Group Upstream Executive Vice President

- **International Upstream expert hired to strengthen MOL Group's Upstream business segment**
- **Alexander Dodds previously filled executive positions at different energy majors, such as TNK-BP and ExxonMobil**

Budapest, 12th June 2013 – MOL Group today announced the appointment of Alexander Dodds as Executive Vice President - Exploration & Production and member of the Executive Board, effective 17th June. This appointment reflects MOL Group's determination to accomplish its Upstream strategy and thus to strengthen its new international headquarters team.

Mr Dodds has over 30 years' deep understanding of the international upstream oil and gas arena with broad experience in exploration, development and production. He brings with him a significant international track record, having worked in North America, South America, the North Sea, the Middle East, Asia and Russia. His recent assignments have included being Executive Director and Executive Vice President at TNK-BP and President & General Manager at ExxonMobil Qatar Inc.

Alexander Dodds gained his BSc in Civil Engineering and a Masters in Petroleum Engineering. Mr. Dodds is going to strengthen the international expert team of MOL Group which has grown significantly and is becoming a more and more important Upstream player in Europe, the CIS countries and the MENA region.

According to the Capital Market Act. Mr Dodds will be considered as executive employee of MOL Plc. and at the moment he does not have any capital securities issued by MOL.
