Main activities

AviaAM Leasing is a holding company together with its subsidiaries (referred to as “the Group”) established to acquire, lease and trade commercial aircraft. The Group’s primary focus is on the market for used aircraft, primarily on aircraft ten years of age or older. The Group is principally engaged in purchasing commercial aircraft which the Group, in turn, lease to airlines around the world to generate attractive returns on equity. The Group leases its aircraft to airlines pursuant to net operating (“dry”) leases that require the lessee to pay for maintenance, insurance, taxes and all other aircraft operating expenses during the lease term.

In addition to aircraft operating lease activities, the Group is actively engaged in aircraft trading business through acquiring, refurbishing and subsequent sale of aviation assets. Through long-standing relationships and extensive market knowledge, the Group acquires aircraft from airline operators, other lessors, trading entities, financial institutions and directly from the manufacturers. These acquisitions are made with the intent of subsequent sale of the aircraft either in “as-is” condition or after performing certain technical modifications in order to meet the client’s requirements.

While Group’s primary business is to own, lease and trade aircraft, the Group also provides consulting, aircraft transaction management and remarketing services to third parties for a fee. These services are similar to those the Group performs for its fleet, including leasing, re-leasing, lease management and sales services. Thanks to Group’s extensive market intelligence gathered from its daily contacts with other market participants, the Group is well positioned to advise its clients on the best terms and conditions available in the market, and to provide assistance and know-how to its clients in the field of structuring and maintaining their aircraft portfolios.

Plans and forecasts

The Group intends to further follow a disciplined approach to future aircraft acquisitions, seeking to create a portfolio of aircraft in the niche markets for used, midlife to end-of-life (generally, ten years of age or older) narrowbody jet and regional aircraft and to further expand its activities in the fields of aircraft trading and management. To execute this strategy, the Group will focus on the following:

- Generating higher yields: the management of the Company believes the aforementioned target assets typically have higher lease rates relative to their purchase price (i.e. as the lease rate factor) than newer aircraft, thus allowing the Company and the Group to generate attractive, cash-on-cash yields;
- Identifying transactions that are not widely marketed: through the management's relationships with aircraft lessors, financial investors and brokers, the Group expects to have access to transactions that are not widely marketed;
- Strategically acquiring attractive assets during market weakness: while the Group intends to be active in the aircraft leasing market throughout market cycles, the Group will seek to take advantage of the cyclical nature in the aviation industry by opportunistically acquiring selected aircraft during market downturns;
- Providing for flexible resales and part-out: the Group expects to employ a flexible divestment strategy to allow to sell assets when the market cycle makes asset sales most advantageous;
- Focusing on high growth markets: the Group is primarily focused on the Eastern European, Russian and CIS markets; however due to the nature of the aircraft operating leasing business the Group is seeking for expansion of the geography of operations into other markets such as Western Europe, Middle East and Southeast Asia.
- Expanding the scope of services provided by the Group: in addition to aircraft leasing and trading business lines, the Group intends to further expand its aircraft transaction management, consulting and asset management activities leveraging the successful track record of the executed transactions and experience and know-how of the management.

Acquisitions of aircraft either for leasing or trading activities will be pursued through the co-operation with aircraft operators, manufacturers, financial institutions, private investors and third party lessors.

VI. OTHER INFORMATION

Information about compliance with Corporate Governance Code

The Company complies with the Lithuanian corporate regime established by the Lithuanian law and the Articles of Association of the Company. Since 28 June 2013 the Shares of the Company are listed on the main market of the Warsaw Stock Exchange (the “WSE”).

The WSE has a corporate governance code, which is the Code of Best Practice for WSE Listed Companies, the most recent version being the Appendix to Resolution No.19/1307/2012 of the Exchange Supervisory Board dated 21 November 2012 (the “WSE Corporate Governance Code”) which can be found on the website dedicated to the corporate governance at the Warsaw Stock Exchange: www.corp-gov.gpw.pl.

The Company acknowledges the importance of good corporate governance and intends to seek the compliance with the WSE Corporate Governance Code to the extent possible. Especially, the Company intends to be as transparent as it is legally and practically possible using multilingual Company’s website. Moreover, all members of the Supervisory Council are independent. However, due to, inter alia, differences between Polish and Lithuanian Corporate Law the Company does not comply with the following rules of the WSE Corporate Governance Code:

– Rule II.3 and Rule III.9, according to which the Supervisory Council should approve a significant transaction/agreement with a related entity at the request of the Management Board. In accordance with Lithuanian law, the Supervisory Council is not entitled to approve any decisions of the Management Board;

– Rule III.8, according to which annex I to the Commission Recommendation of 15 February 2005 on the role of non-executive or supervisory directors of listed companies and on the committees of the (supervisory) council should apply to the tasks and the operation of the committees of the Supervisory Council. As at the date of this Annual Report, the Supervisory Council has not formed any committee, however due to the limited number of the Supervisory Council members the entire Supervisory Council acts as the particular committee and it aims to apply the rules indicated in the Commission Recommendation mentioned above;

– Rule IV 10, according to which the Company should enable its shareholders to participate in a general meeting using electronic communication means through real-life broadcast of General Meetings and real-time bilateral communication where shareholders may take the floor during a general meeting from a location other than the general meeting. The Company does not enable participation in the general meeting by using electronic communication means through real-life broadcast and real-time bilateral communication. However, the Company does not exclude that such means will be adopted in the future.

Furthermore, the Company does not comply with the following recommendations:

– Recommendation I.5, according to which the Company should have a remuneration policy and rules of defining the policy. The Company has not adopted such policy, since the Company's group is developing and the number of employees and members of management do not justify implementation of a complex set of rules;

– Recommendation I.9, according to which a balanced proportion of women and men in management and supervisory functions should be ensured. As of 31 December 2013, there were no women in management bodies of the Company. However, the Company does not exclude that this recommendation will be implemented in the future;

– Recommendation I.12, according to which the Company should enable its shareholders to exercise the voting right during a general meeting either in person or through a proxy, outside the venue of the general meeting, using electronic communication means. Currently, the Company does not envisage possibility to enable its shareholders to exercise the voting right during a general meeting outside the venue of the general meeting, using electronic communication means. However, the Company does not exclude that relevant solutions will be introduced in the future.
