Comments to the Financial Information

General information

Auga Group AB (hereinafter – “the Company”) was founded and started its operations on 25 June 2003. The Company’s head office is located in Konstitucijos av. 21C, Quadrum North, Vilnius, Lithuania.

In 2003 the Company’s legal name Galuvė UAB was changed to Agrovaldymo grupė UAB. In February 2006, limited liability company Agrovaldymo grupė was reorganized to a public company Agrovaldymo grupė AB. In December 2007 the Company’s name was changed to Agrowill Group AB.

In October, 2016 the Company’s legal name Agrowill Group AB was changed to Auga Group AB.

In April 2014, AUGA Group AB group of companies were acquired by Baltic Champs Group UAB. Based on the requirements outlined in International Financial Reporting Standard 3 “Business Combinations” (IFRS 3) such transaction is treated and accounted for as a reverse acquisition, as former shareholders of BC obtained control of more than 50% of AUGA Group AB shares and received the majority of seats in the Board of Directors. For accounting purposes, the legal buyer AUGA Group AB is treated as an accounting acquiree, while legal acquiree Baltic Champs UAB is treated as an accounting acquirer. The new AUGA Group AB group of companies, hereinafter in the financial statements is referred to as the Group.

Due to this reverse acquisition transaction, the consolidated figures for the reporting period represent the Group’s financial information, being those of Baltic Champs UAB (accounting acquirer) and its subsidiaries financial statements, although the legal name continues to be that of AUGA Group AB.

The Company’s shareholders’ meeting has the power to reject and request the management to reissue financial statements after issue. Starting since 1 April 2008 the Company was listed on Vilnius Stock Exchange Main list, since 30 April 2009, the Company was moved to the Secondary list of NASDAQ OMX Vilnius Stock Exchange. As of 8 July 2011, the Company’s shares are also traded on the Warsaw Stock Exchange. The fiscal year of the Company and its subsidiaries corresponds with calendar year.

Group main activities are organic agriculture (crop and vegetable growing), dairy cow husbandry, mushroom growing and end user products production. The Group consists of the Company and one hundred thirty three subsidiaries. The subsidiaries included in the Group’s consolidated financial statements are indicated below:

FINANCIAL INFORMATION

(All amounts are in EUR thousand, unless otherwise stated)

Basis of preparation

Except as described below, the accounting policies applied are consistent with those of the annual financial statements for the year ended 31 December 2016, as described in those annual financial statements. Taxes on income in the interim periods are accrued using the tax rate that would be applicable to expected total annual earnings.

The accompanying interim financial information for the period ended 31 December 2017 has been prepared in accordance with IAS 34, 'Interim financial reporting'. The consolidated financial information have been prepared on the historical cost basis, as modified by the revaluation of land, investment property and biological assets (livestock and crops). This financial information should be read in conjunction with the annual financial statements for the year ended 31 December 2016, which have been prepared in accordance with IFRS as adopted by the EU.

The preparation of financial information in conformity with IAS 34 requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the group's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the consolidated financial information, are disclosed below.

Critical accounting estimates and assumptions

The Group makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, seldom equal the related actual results. The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and future periods if the revision affects both current and future periods. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities in future periods are addressed below.

Income taxes

Tax authorities have right to examine accounting records of the Company and its Lithuanian subsidiaries at anytime during the 5 year period after the current tax year and account for additional taxes and fines. In the opinion of the Group's management, currently there are no circumstances which would raise substantial liability in this respect to the Group.

The Group has created deferred tax liability on revaluation amounts of investment property and own assets. The applicable tax rate used was 15%, as it is planned that assets will be realized (if will be realized) after 2013 when the 15% corporate tax effect will be applicable to all Group's entities (except for the agricultural subsidiaries which are currently taxed at lower transition tax rate of 5%).

Biological assets

Biological assets are measured on initial recognition and at each balance sheet date at their fair value less estimated costs to sell, except for the case where the fair value cannot be measured reliably on initial recognition. Agricultural produce harvested from the Group's biological assets is measured at its fair value less estimated costs to sell at the point of harvest and subsequently recorded as inventories.

If an active market exists for a biological asset or agricultural produce, the quoted price in that market is the appropriate basis for determining the fair value of that asset. If an active market does not exist the most recent market transaction price, provided that there has not been a significant change in economic circumstances between the date of that transaction and the balance sheet date, is used in determining fair value. Cost is used as an approximation of fair value when little biological transformation has taken place since initial cost incurrence, e.g. within short time after seeding the crop.

A gain or loss arising on initial recognition of an agricultural produce at fair value less estimated costs to sell and from a change in fair value less estimated costs to sell of a biological asset is included in profit or loss for the period in which it arises as "Gain (loss) arising from changes in fair value of biological assets and on recognition at fair value of agricultural produce at point of harvest".

The Group's biological assets consist of livestock, crops, mycelium cultivation seedbed and perennial plantations.

Livestock is measured at fair value less estimated point-of-sale costs. The fair value of milking cows is determined based on discounted cash flow method by calculating the revenues generated by the cow herd over the remaining useful life and discounting by weighted average cost of capital of the Group. On initial recognition births and weight gains are recognised at costs which are proportionally allocated from total related costs based on new births and weight gains and at each balance sheet date are measured at their fair value less estimated costs to sell. For valuation of other livestock the Group calculates the fair value by taking the average price of meat per kilo. For young bulls and heifers, the value of

FINANCIAL INFORMATION

(All amounts are in EUR thousand, unless otherwise stated)

livestock is determined by using the market values of meat (different for different groups of animals) and multiplying the price of 1 kg by the total weight of specific group of animals.

The Group has changed its accounting estimate for the valuation of milking cows. In prior year milking cows were valued based on expected sales price determined by the Group from market participants data. The updated model for milking cows fair value calculation was applied perspectively.

Crops are measured at their fair value less estimated costs to sell. At initial recognition the crops are measured at cost as the market-determined values are not available for such biological assets. The crops are measured at fair value once the fair value becomes reliably measurable. Usually the fair value of a crop can be reliably measured only at the point of harvest. This does not create a significant limitation in valuation of crop balances at year-end, as the main increase in fair value is attributable to the same accounting period when the crop is harvested.

Business combinations

In December 2016, the Group started acquisition procedures of KTG AGRAR SE subsidiary companies, operating in Lithuania (KTG group companies) and managing around 7,700 ha of agricultural land. The formal acceptance was received on 13 January 2017, and the Group finalized the acquisition procedures on 31 January 2017. Fair value estimation of acquired KTG group companies is provided below.

Revenues

Revenues breakdown by type was the following:

	12 month period ended 31 December	
	2017	2016
Mushrooms sales	25,479	25,753
Milk sales	8,205	6,223
Agricultural sales	14,203	6,825
Cattle sales	805	811
Other revenues	92	18
Total	48,784	39,630

In 2017 the Group revenues increased by 25% comparing to last year. Most of the increase is related to agricultural sales which increased by 206%. This occurred due to the transition to organic farming, as most of the sales of organic produce are quite evenly divided from the point of harvest until the next summer while conventional produce is mostly sold right after the harvest - only 40% of 2016 year's harvest were sold in 2016, while 80% of 2015 year's harvest were sold in 2015 which caused lower sales per 12 months of 2016 compared to the same period in 2017. Comparing year to year revenues from mushrooms and compost sales stayed approximately in the same level. However, in the first 3 months of 2017 mushroom farm suffered a loss due to temporary problems in production, but in the last 9 months the production of mushrooms increased and reached the the same level of turnover as last year. Revenues from sales of milk have increased due rise of market milk prices. Comparing to 12 months of 2016, milk price has increased by 36%, while the yield decreased by 2%.

Gain (loss) on changes in fair values of biological assets and on recognition at fair value of agricultural produce at point of harvest

Gain (loss) on changes in fair values of biological assets and on recognition at fair value of agricultural produce at point of harvest breakdown by type was the following:

	12 month period ended 31 December	
	2017	2016
Live stock	(911)	(629)
Agriculture	5,388	(239)
Total	4,477	(868)

Gain (loss) on changes in fair values of biological assets and on recognition at fair value of agricultural produce at point of harvest consists of 2 segments : livestock and agriculture. The Group has suffered a loss on change in fair value of biological assets due to high cost of livestock sold for meat. Gain on recognition at fair value of agricultural produce has increased significantly due to transition to organic farming and increased sales prices. In addition to this, in 2017 yields of most cultures were higher comparing to the yields of 2016. However, in the last quarter of 2017 the Group has suffered significant losses due to extreme weather conditions, as quality of grain harvested in the last quarter of 2017 was poor and part of the crops was not harvested at all.

In 2017 most of the harvest is evaluated based on signed future contracts. Milk, mushrooms and compost are not recognized at fair value at point of harvest, as it is harvested and sold on daily basis.

Cost of sales

Cost of sales breakdown by type was the following:

	12 month period ended 31 December	
	2017	2016
Mushrooms cost of sales	24,499	23,065
Milk cost of sales	7,607	6,453
Agricultural cost of sales	14,073	5,865
Cattle cost of sales	805	1,282
Other cost of sales	-	-
Less: State subsidies	(8,972)	(8,680)
Total	38,012	27,985

The Group cost of sales increased mainly due to increased cost of agricultural sales. Cost of agricultural sales increased in-line with sales increase. Cost of mushrooms increased due to mushroom production problems in first quarter of 2017 and increased labor costs.

FINANCIAL INFORMATION

(All amounts are in EUR thousand, unless otherwise stated)

Cost of sales (continued)

Total State subsidies increased due to purchased KTG Agrar group, however in general it has decreased due to the fact that in 2017 the Group has fully finished the conversion to organic agriculture and the harvest of 2017 is fully organic for which ecological subsidies are lower.

Operating expenses

Operating expenses breakdown by type of expenses was the following:

	12 months period ended 31 December	
	2017	2016
Payroll expenses	3,089	2,337
Depreciation of property, plant and equipment	774	647
Selling expenses	585	367
Social security expenses	958	724
Insurance and tax expense	526	472

Impairment of accounts receivable	-	15
Transportation costs	198	86
Fines and late payments	94	128
Office administration	453	374
Other expenses	985	742
Total	8,989	7,014

Operational expenditures grew due to increased number of employees as a result of business expansion, as well as other expenses related to new acquisitions. Additional expenses included AUGA brand and end-consumer product development, marketing investments and export initiatives.

Other income

Other income breakdown by type was the following:

	12 months period ended 31 December	
	2017	2016
Gain (loss) on sale of investment property	-	(227)
Gain (loss) on sale of property, plant and equipment	164	-
Write-down of liabilities	81	184
Interest and fines income	93	48
Insurance benefits	100	32
Other income (expenses)	(132)	90
Total	306	127

Interest and fines income has increased due to the sale of Fixed yield investment fund in December, 2016 which still had an outstanding loan balance. The Group has sold a part of property, plant and equipment acquired with the purchase of KTG Agrar group, and recognized a profit of EUR 164 thousand these sales.

Financial expenses

Financial expenses breakdown by type was the following:

	12 months period ended 31 December	
	2017	2016
Bank interest expenses	1,207	1,283
Other interest expenses	456	596
Currency fluctuation effect	(13)	-
Other financial expenses	258	220
Total	1,908	2,098

FINANCIAL INFORMATION

(All amounts are in EUR thousand, unless otherwise stated)

Financial expenses (continued)

In 2017 bank interest expenses were lower due decreased financial liabilities to banks after the sale of Fixed yield investment fund in December, 2016. However it also increased as the Group inherited financial liabilities with acquisition of KTG Group companies, additions of property plant and equipment financed by financial leasing and increased credit lines to finance working capital.

Regarding the decision of the Supervision Service of the Bank of Lithuania

Under the Decision No. 241-59 of 3 April 2017 of the Supervision Service of the Bank of Lithuania (herein – Decision) AUGA group, AB, was obliged to ensure that no later than before 1 October 2017 the fair value of 100% block of shares of UAB eTime Invest (herein – Assets), which was used as the payment for a part of the authorised capital of AUGA group, AB, is re-evaluated. Should it be established that the shares of AUGA group, AB, are not fully paid up, to ensure that this situation is rectified retrospectively according to the requirements of the law.

In order to perform the instructions provided in the Decision, the Company ordered evaluation of the Assets. Company received Assets valuation report from UAB „Newsec Valuations“ 2017.10.02, whereunder the true / market value of the Assets on the date of their acquisition (15.04.2017) is 16,900,000 litas. Given that the value of the Assets under the latter evaluation is not less than the value of 12.03.2014 valuation report of UAB „Oberhaus Nekilnojamasis turtas“, on the basis of which part of the Company's authorised capital was paid up in 15.04.2014 (value of the Assets under Oberhaus valuation – 16,700,000 litas), it is deemed that the shares of the Company are duly and fully paid up in accordance with the requirements of the applicable laws.

Completion of transition to organic farming

In August 2017, agricultural companies of AUGA group, AB have successfully completed transition to organic farming, which commenced in 2015, and have received European organic farming certificates. Henceforth, crops and milk produced by the companies are certified as organic and will be used to produce new organic food products.

Acquisition of KTG AGRAR Lithuanian operations

As it was discussed earlier the Group finalized the acquisition procedures of KTG AGRAR SE subsidiary companies on 31 January 2017 managing around 7,700 ha of agricultural land.
